

FAST PAYMENT SUM PERCENTAGE INCREASE TO 45%
AND SUPPLEMENTAL PAYMENT

The Fuller-Austin Asbestos Settlement Trust (the “Trust”) is pleased to inform you of the increase in the Trust’s Payment Sum Percentage from 38% to 45%. The increase was approved in consultation with the Trust Advisory Committee and the Legal Representative and with their consent. In addition, the Trust will make supplemental payments to all claimants whose allowed claims were previously paid at less than 45%. The increase became effective April 1, 2026.

The following actions are being taken in accordance with this Payment Sum Percentage increase:

- Claims Previously Allowed and Paid at less than 45% – For claims previously paid at less than 45%, a supplemental payment will be distributed based on the increased Payment Sum Percentage net of all previous payments. Payment along with a claims report will be distributed to law firms and pro se claimants prior to the end of April 2026.
- Claims Currently Allowed at less than 45% but Not Yet Paid – These claims were previously allowed at less than 45% but have not had a properly executed Release and Indemnity returned to the Trust. The Notice of Determination – Allowance (“NODA”) for these claims will be updated to reflect the increased Payment Sum Percentage of 45%. Updated NODA letters and Release and Indemnity agreements will be viewable and downloadable from the online claims system prior to the end of April 2026. Following the return to the Trust of a properly executed Release and Indemnity, the claims will be paid based on the Payment Percentage of 45%.
- Claims Currently Allowed at less than 45%, Not Yet Paid, but in the Payment Queue – These claims were previously allowed at less than 45%, have had a properly executed Release and Indemnity returned to the Trust, and are in the Payment Queue. Updated NODA letters will be viewable and downloadable from the online claims system prior to the end of April 2026. Since the properly executed Release and Indemnity has been returned, these claims will be paid based on the Payment Sum Percentage of 45% prior to the end of May 2026.
